

PRESS RELEASE

For Immediate Release

April 1st, 2022

There is something captivating and unique in the sound the joined forces of I Ya Toyah and The Joy Thieves brings to the Alternative music table. This time, it is Vast Spaces remix- an industrial banger in its reimagined version.

Amplified by the talents of Dan Milligan and James Scott of The Joy Thieves Productions, Sketenings' Phil Owen and Dee J Nelson, Vast Spaces remix takes the song's original energy to the next level.

'When I received this remix from Dan, I was driving and I immediately blasted it in my car's speakers. I was blown away by the massive wall of sound it hit me with. Then, it brought me to tears. Because in a million years I wouldn't envision that someone would go to this extent to create a remix. I knew right away how much work it took. Ton! It speaks volumes. It speaks love' - says Ania/ I Ya Toyah.

Special highlight goes to Greg Rolfes at Eleven12 Design & Photography who designed the vibrant cover art for the single. Original photo was taken by Krzysztof Babiracki.

Vast Spaces Remix is now available for download on bandcamp:
